WILL SMITH

UX Researcher and Designer | M.S. HCI Candidate

linkedin.com/in/willsmith8418 | willsmithux.github.io

UX researcher and designer using interviews and usability studies to shape conversational interfaces and behavior-change tools. Background in wellness education and design ethics.

SELECTED PROJECTS

Nutrition Support Assistant

Conversational UX Research | Solo | Spring 2026

- Designed and evaluated a conversational meal-planning prototype for fatigued users through 11 Wizard-of-Oz sessions, NASA-TLX measurement, and interviews.
- Identified differing portion-format preferences by nutrition experience, informing a recommendation for optional gram-based detail alongside hand-based estimates.

EffortCircles

UX Research and Interaction Design | Team of four | Fall 2025

- Synthesized seven user interviews into a journaling concept with private entries and two sharing circles, addressing concerns about public comparison.
- Contributed to four usability sessions; three participants chose the wrong tab to begin writing, informing consolidation of writing actions under Journal.

Wind-Down Smart Glasses

Interaction Design and Prototyping | Team of two | Spring 2026

- Led voice-based worry capture and morning review for an AR bedtime concept; developed the flow through sketches, storyboards, and three prototype fidelity stages.
- Tested with six participants across two Wizard-of-Oz rounds; revised voice prompts, breathing cues, and exit controls in response to usability findings.

EXPERIENCE

Founder | MindfulWill | May 2025 to Present

- Design and build digital wellness tools and behavior-change resources through user research, prototyping, and iterative testing.

Wellness Educator | Public Education | 2019 to Present

- Designed learning and wellness programs that improved fitness outcomes by 18% over three years.
- Built digital reflection and assessment workflows that raised average assessment scores from 60% to 88%; mentor pre-service teachers in learner-centered instructional design.

EDUCATION

M.S. Human-Computer Interaction | Indiana University Indianapolis
Expected May 2027

B.A. Physical Education, Health & Wellness | Marshall University
Dec 2017 | Minor in Exercise Science

SKILLS

Research: Interviews, usability testing, Wizard of Oz, NASA-TLX, cognitive walkthroughs, heuristic evaluation
Design: Interaction design, conversational UI, information architecture, accessibility/WCAG, value-sensitive design
Tools: Figma, Balsamiq, AI/LLM prototyping

CERTIFICATIONS

Google UX Design Professional | Figma for UX Design | GenAI 101 Series, IU
